This Vehicle's Glossary

Below are the specific definitions for events that appear in this vehicle's report. More information is available in the full [DMV Report Pro glossary](#).

Term	Section Location	Definition
Junk/Scrapped	Major State Title Brand Check	Treated as or named a salvaged title in some states, a junk title is issued when a vehicle is determined to be unsafe for road use. Though dependent on your state of residence, it is common for a vehicle to be branded with a junk title if the cost to repair damages exceeds 75% of the vehicle's worth. Once branded as junk, the title cannot be changed or reissued with a new designation. These records were reported by the auction or salvage auction or when the seller's disclosed or the auction discovered junk/salvage title from the DMV and/or insurance company records.
Salvage	Major State Title Brand Check	A salvage vehicle is a vehicle that has been wrecked or damaged beyond repair; declared a total loss by the insurer; or declared a total loss by reason of theft. When an insurance company as a result of a total loss settlement acquires a vehicle, the insurance company must apply for a Salvage Certificate. If the owner retains possession of a salvage vehicle, the owner must obtain a Salvage Certificate before receiving a total loss statement from the insurance company.
Odometer Problem	Major State Title Brand Check	The vehicle has odometer-related problems. These may include discrepancies such as not actual miles, a broken odometer, exceeding a vehicle's mechanical limits, a mileage discrepancy, or suspect miles.
Major Damage Incident	Damage Check	When a (i) State agency or third party reported an event that did or may have resulted in vehicle frame or mechanical damage, such as a collision or incident such as vandalism or theft, or (ii) a third party reported that an inspection indicates that a vehicle appears to have sustained frame or other damage. Not all damage events are reported to DMV Report Pro and the damage severity of reported events will vary. In all events DMV Report Pro recommends that prospective vehicle purchasers conduct a detailed vehicle inspection prior to purchase of a pre-owned vehicle.

Insurance Total Loss	Other Title Brand and Specific Event Check	Insurance companies label a vehicle a "total loss" when the cost to repair the vehicle to its pre-damaged state exceeds the cost of the vehicle's worth, or actual cash value. Insurance companies must follow certain state law (defined percentage of damage before it can be deemed a total loss) and they also can set their own standards for totaled vehicles.
Personal Use	Vehicle Use	This vehicle was driven for personal use.
Accident	Accident Section	A state or municipality has reported an accident or collision for this vehicle that may or may not have sustained damage. Not all damage events are reported to DMV Report Pro and the damage severity of reported events will vary. In all events DMV Report Pro recommends that prospective vehicle purchasers conduct a detailed vehicle inspection prior to purchase of a pre-owned vehicle.
Open Recall	History Section	A recall is considered 'open' for a vehicle when it has not received the required service to correct the identified recall. The vehicle will need to be taken to a repair center that has been authorized by the manufacturer to correct any open recall conditions.
Recall	History Section	A safety, emission or bulletin issued by the vehicle manufacturer, the Environmental Protection Agency (EPA) or the Department of Transportation (DOT). These are different than a service bulletin. A recall involves work that must be done at no charge to the consumer by an authorized dealer of the vehicle make involved.
